Abstract:

With the rising complications in health sector all over the world, the current era requires pharmacist (practicing) in addition to augment the health of public along with physicians & nurses on educating patients (subjects) on their ailments. Patient (subject) safety is the main area of concern with laws & modalities benefitting patients (subjects). Developing countries are having their laws modified which are patient (subject) health centric & safe to them [1,2]. In India this development is yet to prosper where pharmacist is still found more in industrial sectors & not involved much in-patient care. They are still tied up at the retail drug stores dispensing drugs insisted by the physicians [3, 4]. The role of pharmacist (practicing) in dispensing at hospitals with proper & required information regarding drugs being given to patients (subjects) is important for patient (subject) health & welfare. Duty of a pharmacist(practicing) in timely intervention revilement for the benefit of the patients (subjects) is found to be important [5,6]. A change in pharmacist profession could be bought about with the affiliation & active functioning of pharmacist with associations of allopathic professions by a registered pharmacist [7,8]. Continued participation of a pharmacist(practicing) in professional meetings carried out by the academic bodies or any other organizations helps in development of profession.

In relation to the powers provided by Section 10 & 18 of the Pharmacy Act, 1948 (8 of 1948), the “Pharmacy Council of India”, with the approval of the Government of India has made the Pharmacy Practice Regulations, 2015. This includes mainly following sections:

- Points related to code of Pharmacy Ethics
- Points related to responsibilities of the registered pharmacist in general
- Points related to maintaining good pharmacy practice
- Points related to responsibilities of registered pharmacists to their patients (subjects)
- Points related to responsibilities of registered pharmacist
- Points related to responsibilities of registered pharmacists to each other
- Points related to responsibilities of registered pharmacist to the public & to the profession [9]

Keywords: PPR, Pharmacy Practice, Regulations, Pharmacy Council of India
